

2nd LATIN-AMERICAN BIOBED WORKSHOP

June 26th and 27th, 2014
Guatemala, Central America

Objective:

To gather experts and researchers interested in the development of biobeds and biopurification systems to minimize contamination by pesticides.

Topics:

- Technologies in biological degradation of pesticides
- Optimization of biomixtures
- Biobeds microbiology
- Open and close biobed systems
- Biobed acceptance experiences among farmers
- Regulatory, aspects of certification
- Use of biobeds for other type of contaminants: oils, petroleum, etc.

Interested in sharing research:

- 30 minutes presentations (Power Point) plus discussion.
- Send abstract of 300 words in Times New Roman point 12.
- The abstracts must be send before March 15th, 2014 to j.ruano@agrequima.com.gt
- The presentations must be send before June 1st, 2014 to j.ruano@agrequima.com.gt

Place of the event:

- Universidad del Valle de Guatemala

Costs:

- No registration fee.
- Participants will assume their own hotel and transport expenses.
- Food, abstract book and field trip are sponsored by Agrequima
